OUR PRODUCT RANGE

The full range, all in one place.

Eighteen medical, protective and hygiene essentials across six categories. Open any product for its typical options, then tell us what you need.

INFUSION & TRANSFUSION

IV infusion sets	KHS-01
Blood transfusion sets	KHS-02
Measured-volume sets	KHS-03
3-way cannula connectors	KHS-04

ACCESS & INJECTION

IV cannulas	KHS-05
Syringes	KHS-06

CATHETERS & TUBES

Foley catheters	KHS-07
Ryle's tubes	KHS-08

WOUND CARE & ANTISEPTICS

Sterile gauze	KHS-09
Absorbent cotton	KHS-10
Povidone-iodine (Betadine-type) solution	KHS-11

GLOVES & PROTECTION

Nitrile gloves	KHS-12
Latex gloves	KHS-13
Surgical gloves	KHS-14

HYGIENE & HOUSEKEEPING

Hand sanitizer	KHS-15
Handwash	KHS-16
Phenyl floor disinfectant	KHS-17
Dusting cloths	KHS-18

Indicative options for this category. Exact models, sizes, packaging and documentation are confirmed on enquiry. Quotes and availability are confirmed in writing by our team.

Infusion & transfusion

Sets and connectors for fluid, blood and measured-volume administration.

KHS-01

IV infusion sets

Single-use IV infusion sets with a clear drip chamber, roller clamp, flexible tubing and a luer connector, supplied sterile for routine fluid administration. Available with or without an injection port and in vented and non-vented configurations.

Drip rate	**20 drops/mL standard; micro-drip options**
Configuration	**Vented or non-vented; with or without Y-injection port**
Tubing length	**Approx. 150 cm (other lengths on request)**
Sterility & packaging	**Sterile, EO-sterilised, individually blister-packed**

KHS-02

Blood transfusion sets

Blood administration sets with a double drip chamber and an integrated 170–200 micron filter to retain clots and aggregates, robust tubing and a secure spike. Supplied sterile for single use.

Filter	**170–200 micron blood filter in the drip chamber**
Configuration	**Double chamber; roller clamp; luer lock connector**
Tubing length	**Approx. 150 cm**
Sterility & packaging	**Sterile, individually packed**

KHS-03

Measured-volume sets

Measured-volume (burette) infusion sets with a graduated 100 mL or 150 mL chamber for precise dosing, an auto shut-off float valve, injection site and air vent. Designed for paediatric and medication infusions where exact volumes matter.

Chamber capacity	**100 mL or 150 mL graduated chamber**
Features	**Auto shut-off valve, injection port, air vent, roller clamp**
Tubing length	**Approx. 150 cm**
Sterility & packaging	**Sterile, individually packed**

+91 72176 48896 · Khybersurgicalindia@gmail.com

KHS-04

3-way cannula connectors

Three-way stopcocks with a smooth rotating handle, luer-lock ports and a clearly marked flow direction, available plain or with a short extension line. They let clinicians administer multiple fluids or medications through one access point without repeated disconnection.

Ports	**3-way, luer lock, male/female**
Variants	**Plain stopcock or with 10–25 cm extension tubing**
Pressure rating	**Standard infusion pressures (confirm per model)**
Sterility & packaging	**Sterile, individually packed**

ACCESS & INJECTION

Access & injection

Cannulas and syringes for vascular access and injection.

KHS-05

IV cannulas

Peripheral intravenous cannulas with a sharp bevelled needle, smooth catheter, flexible wings and an injection port with cap, colour-coded by gauge for quick identification. Safety-needle variants can be discussed on request.

Gauge range	**14G to 26G, colour-coded**
Features	**Injection port, wings, flashback chamber; safety option**
Catheter material	**PTFE or PU (confirm per model)**
Sterility & packaging	**Sterile, individually blister-packed, boxes of 50/100**

KHS-06

Syringes

Single-use syringes with clear graduation, smooth plunger action and a secure luer slip or luer lock tip, supplied with or without a needle. Available across the standard capacity range used in daily clinical practice.

Capacities	**1, 2, 3, 5, 10, 20 and 50 mL**
Tip	**Luer slip or luer lock; insulin and tuberculin options**
Needle	**With needle (various gauges) or without**
Sterility & packaging	**Sterile, individually packed, boxes of 100**

CATHETERS & TUBES

Catheters & tubes

Urinary and nasogastric tubes for ward and theatre use.

KHS-07

Foley catheters

Two-way and three-way Foley catheters in silicone-coated latex or 100% silicone, with a symmetrical balloon, colour-coded funnel and smooth, atraumatic tip. Supplied sterile in peel-open packs for ward and theatre use.

Sizes	**Fr 8 to Fr 24 (paediatric to adult)**
Configuration	**2-way (drainage + balloon) or 3-way (irrigation)**
Material	**Silicone-coated latex or 100% silicone**
Balloon	**5–15 mL or 30 mL; sterile, individually packed**

KHS-08

Ryle's tubes

Ryle's nasogastric tubes in soft, kink-resistant PVC with a radiopaque line for X-ray visibility, depth markings, a rounded closed tip with lateral eyes and a colour-coded funnel connector. Supplied sterile for single use.

Sizes	**Fr 6 to Fr 20, colour-coded**
Length	**Approx. 105 cm with depth markings**
Material	**Medical-grade PVC with radiopaque line**
Sterility & packaging	**Sterile, individually packed**

WOUND CARE & ANTISEPTICS

Wound care & antiseptics

Gauze, cotton and antiseptic solution for dressing and skin preparation.

KHS-09

Sterile gauze

Soft, highly absorbent 100% cotton gauze in folded swabs and rolls, available sterile in sealed packs or non-sterile in bulk. Low-lint, with an open weave that supports wound cleaning, dressing and padding.

Formats	**Swabs 5×5, 7.5×7.5, 10×10 cm; rolls and bandage gauze**
Ply	**8-ply, 12-ply and 16-ply**
Sterility	**Sterile (peel packs of 5/10) or non-sterile bulk**
Material	**100% absorbent cotton, low lint**

KHS-10

Absorbent cotton

Bleached, purified absorbent cotton wool with high absorbency and a soft, uniform fibre, supplied in rolls, zig-zag packs and ready-made cotton balls. Suitable for cleaning, padding and general-purpose clinical use.

Formats	**Rolls 100 g, 200 g, 500 g; zig-zag; cotton balls**
Grade	**Absorbent, bleached, purified**
Sterility	**Non-sterile (sterile balls on request)**
Packaging	**Individually wrapped rolls; bulk cartons**

KHS-11

Povidone-iodine (Betadine-type) solution

Povidone-iodine antiseptic solution in 5% and 10% strengths, in solution, scrub and ointment forms, supplied in sizes from pocket bottles to bulk containers. A broad-spectrum antiseptic used for pre-operative skin preparation and wound cleansing.

Strength	**5% and 10% w/v povidone-iodine**
Forms	**Solution, surgical scrub, ointment**
Pack sizes	**100 mL, 500 mL, 1 L, 5 L**
Packaging	**Flip-top or screw-cap bottles; bulk containers**

GLOVES & PROTECTION

Gloves & protection

Examination and surgical gloves in nitrile and latex.

KHS-12

Nitrile gloves

Powder-free nitrile examination gloves with textured fingertips for grip, good chemical resistance and a latex-free formulation suited to allergy-sensitive settings. Ambidextrous, in blue or other colours, dispensed from boxes of 100.

Sizes	**XS, S, M, L, XL**
Type	**Examination, powder-free, ambidextrous, latex-free**
Colour	**Blue standard; black and white on request**
Packaging	**Boxes of 100, cartons of 10 boxes**

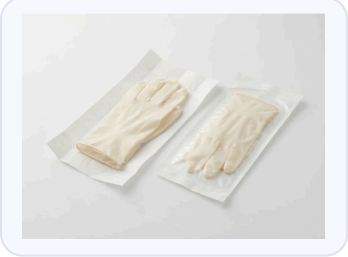

KHS-13

Latex gloves

Natural-rubber latex examination gloves with excellent elasticity, tactile sensitivity and comfort, available powdered or powder-free. Ambidextrous and dispensed from boxes of 100 for general examination and care tasks.

Sizes	**XS, S, M, L, XL**
Type	**Examination, ambidextrous; powdered or powder-free**
Material	**Natural rubber latex**
Packaging	**Boxes of 100, cartons of 10 boxes**

KHS-14

Surgical gloves

Sterile surgical gloves in latex or synthetic materials, hand-specific (left and right) with anatomical shaping, beaded long cuffs and a micro-textured surface for secure instrument handling. Each pair is folded in an inner wallet inside a sealed peel pouch.

Sizes	**6.0 to 8.5 in half sizes**
Material	**Latex (powdered / powder-free) or synthetic latex-free**
Sterility	**Sterile, pair-packed in inner wallet and peel pouch**
Packaging	**Boxes of 50 pairs**

Hygiene & housekeeping

Hand hygiene and housekeeping supplies for clean, safe facilities.

KHS-15

Hand sanitizer

Alcohol-based hand sanitizer with around 70% alcohol, in gel and liquid formulations with skin-conditioning agents, supplied in pocket bottles, pump bottles and bulk refills for dispensers.

Alcohol content	**Approx. 70% (ethanol / isopropanol)**
Formats	**Gel or liquid rub**
Pack sizes	**50 mL, 100 mL, 500 mL pump, 5 L refill**
Packaging	**Flip-top, pump and bulk containers**

KHS-16

Handwash

Mild antibacterial liquid handwash formulated for frequent use, with moisturisers to protect skin, supplied in pump bottles and economical refill pouches and cans for wall-mounted dispensers.

Type	**Antibacterial liquid handwash, pH-balanced**
Pack sizes	**250 mL, 500 mL pump; 1 L and 5 L refills**
Fragrance	**Mild / unscented options**
Packaging	**Pump bottles, pouches and cans**

KHS-17

Phenyl floor disinfectant

Concentrated phenyl disinfectant for mopping floors and cleaning hard surfaces in wards, corridors, washrooms and common areas, supplied in bottles and bulk cans. Available in white and black phenyl grades.

Grades	**White phenyl (perfumed) and black phenyl**
Concentration	**Concentrate for dilution (per label directions)**
Pack sizes	**1 L, 5 L, 20 L and 50 L**
Packaging	**Bottles, jerry cans and drums**

+91 72176 48896 · Khybersurgicalindia@gmail.com

KHS-18

Dusting cloths

Durable, absorbent dusting cloths in cotton and microfibre, colour-coded to support separate cleaning of different areas. Washable and reusable, supplied in packs and bulk bundles for housekeeping teams.

Materials	**Cotton, microfibre**
Sizes	**Approx. 40×40 cm and 50×60 cm**
Colours	**Colour-coded sets (green, grey, white and others)**
Packaging	**Packs of 10/12; bulk bundles**
